WOOD FINISHES : LINEN

WOOD

Wood is versatile enough for any design from traditional to transitional to modern. And with thousands of style/species/finish combinations... the sky's the limit! Slab-style, wood veneer doors lend themselves easily to more contemporary designs. Veneers are more stable in heat and humidity than solid wood slab construction. Wood is warm and comfortable, strong and durable.

WOOD SPECIES

WOOD SPECIES
AVAILABILITY:
O : OAK
B : BAMBOO
RA : RUSTIC ALDER
M : MAPLE
RC : RUSTIC CHERRY
C : CHERRY
RB : RED BIRCH

THERMOFOIL DOOR STYLES

Thermofoil doors are made of a rigid vinyl heat-and-vacuum applied over a sculptured, 3/4"-thick, medium-density fiberboard. These doors are extremely stable, durable, and easy to care for.

THERMOFOIL FINISHES : STANDARD

THERMOFOIL FINISHES : DELUXE

THERMOFOIL FINISHES : PREMIUM

METAL DOOR STYLES

This is the high-tech, contemporary look of the professionals. Stainless Steel doors are 20-gauge stainless steel wrapped around a medium-density fiberboard core. Aluminum doors are commercial aluminum with a clear A-1 finish, mitered corners and opaque sandblasted glass. Slimline Aluminum is a frame-style door with an opaque, acrylic insert.

MELAMINE DOOR STYLE

ACRILUX DOOR STYLE

Acrilux colors and patterns display through a thick, clear acrylic coating that looks like glass. The ultimate contemporary door style.

VISION™

Our mid-priced cabinetry line with the fine styles and finishes you demand delivers in just three to four weeks.

EUROTEK VENEER
Vision doors, drawer fronts, and other parts are covered by Eurotek veneer, an engineered, micro-fiber wood veneer that is not affected by temperature, humidity, or color changes associated with the aging of solid wood, and top-coated like the finest wood cabinetry.

ENTRÉE™

Our stock cabinet line includes a comprehensive selection of trims, moldings, and other decorative touches and delivers in three to four weeks.

ENTRÉE THERMOFOIL AND MELAMINE

ENTRÉE WOOD

All door styles are not available in all wood species, thermofoils or with all colors and finishes. See Dealer for details. Finishes shown here represent the scope of the product lines and should not be used for color matching.
